Belgium

Lommel, 14th February 2012

To whom it may concern,

We confirm that Chrisal NV has obtained the EU Ecolabel for the Floor Cleaner, Sanitary Cleaner and Universal Cleaner. The products in Europe are sold under the following names: Ultizym Vloerreiniger, Ultizym Interieurreiniger and Ultizym Sanitairreiniger. These products were awarded according to their environmental criteria.

Our licence number is BE/020/007.

In South Africa some of the products commercialized by Hychem are based on the same formulation of the EU Ecolabel products produced by Chrisal.

The products PIP Result, PIP Universal Cleaner, PIP Control and PIP Unidose, are complying with the high standards of the Ecolabel.

Sincerely yours,

A handwritten signature in blue ink, consisting of several overlapping, sweeping lines that form a stylized, abstract shape.
