

POLYCID X QAC BASED- BROAD SPECTRUM BACTERICIDE

PRODUCT USE

Specifically formulated bactericide for use in the food, dairy, water treatment, brewing, oil and leather industries.

Polycide X has a broad spectrum of activity against micro-organisms responsible for spoilage. Polycide is non-volatile and stable at elevated temperatures, and has a low environmental impact, bio-eliminated by absorption when discharged to effluent.

PRODUCT DESCRIPTION

Form	:	Liquid
Colour	:	Light blue
Odour	:	Odourless
pH	:	7 (as received)

DIRECTIONS

Automatically dispensed through Hychem dosing equipment at a 1:10 dilution factor.

For maximum results allow a 4-5 minute contact time. Correct dilution should yield a reading of 200ppm on QT-40 test strips supplied by Hychem.

PRECAUTIONS

- * Keep out of reach of children
- * Do not breathe spray, Could be irritating to skin and eyes – may cause sensitization
- * Wear the appropriate protective gear
- * Use in well ventilated area

FIRST AID

Eyes	Immediately flush eyes with copious amounts of water for at least 15 minutes.
Skin	Remove contaminated clothing. Wash with soap and water.
Inhalation	Remove patient from exposure.
Ingestion	Wash out mouth with water and give 200-300ml of water to drink. Do not induce vomiting.

EFFECTIVENESS OF POLYCID

Polycide X has been tested in accordance with EN1276 and is certified by Intertek. When used as above Polycide X is suitable for use in a food processing environment and shows the required greater than Log 5 reduction against test organisms.

All Hychem products should be used in accordance with the manufacturer's instructions. While every effort is made to ensure the consistent quality of these products no warranty is given or implied in connection with any recommendations or suggestions made by the company, or it's employees as every possible variation in the method of use cannot be anticipated. For further details contact Hychem's Technical Department.
